

Power Steering Cleaner

PN X701 (8oz)

XLR8™
ACCELERATE PERFORMANCE

Product Description:

Formulated for use with all power steering fluids, XLR8 Power Steering Cleaner cleans away harmful sludge, varnish, gum and deposits while helping to extend power steering system component life. As PSF deteriorates, sludge and varnish can build up in the pump leading to power steering failure. XLR8 Power Steering Cleaner removes sludge, varnish, gum and other contaminants from the pump and cleans fluid lines. Keeping the system clean improves steering and extends the life of the power steering pump.

Advantages & Uses:

- For use with all power steering fluid exchange machines or services
- For use with all power steering pumps and PSF fluid types
- Cleans away harmful sludge, varnish, gum and deposits
- Prepares power steering pump for new fluid

Features:

- Helps extend power steering component life
- Improves steering and extends life of power steering pump
