

# Transmission Cleaner

PN X501 (8oz)

**XLR8™**  
ACCELERATE PERFORMANCE

## Product Description:

Formulated for use with all transmissions and transmission fluids, XLR8 Transmission Cleaner cleans away harmful sludge, varnish and deposits while helping to extend o-rings and seal life. As ATF deteriorates, sludge and varnish can build up leading to transmission failure. XLR8 Transmission Cleaner removes sludge, varnish and other contaminants from the transmission, torque converter, pump, ATF cooler and fluid lines. Keeping the system clean improves shifting and extends the life of the transmission.

## Advantages & Uses:

- For use with all transmission fluid exchange machines or services
- For use with all transmissions and ATF fluid types
- Cleans away harmful sludge, varnish and deposits
- Prepares transmission for new fluid

## Features:

- Helps extend o-ring and seal life
- Improves shifting and extends life of transmission
